

WOOD PRODUCTS

WE'RE BUILDING BIG IDEAS

Salmon Arm has a well-established and diverse wood products sector, which is a significant contributor to the regional economy. Salmon Arm's largest private sector employer is Gorman Brothers' Canoe Forest Products, a producer of **CANOE brand®**, which has distinguished itself as a premium quality plywood panel that is well-recognized and valued throughout the world.

Building further on Salmon Arm's strong wood products foundation is the proud acknowledgement that the city is home to Western Canada's largest hub of companies that specialize in the design and manufacture of automated sawmill equipment, led by forestry companies including **USNR**, **BID Group**, **Raptor Integration Inc.** and **Mill Tech Industries**. Salmon Arm is also recognized as an industry leader in forestry management consulting, providing in-depth forestry knowledge and skills to create innovative solutions from strategic timber supply to on-the-ground forest operations.

This strong foundation of talent and opportunity continues to attract skilled professionals and entrepreneurial newcomers to this innovative business sector. Bring us your big ideas.
